Environmental Policy v1.5

Our aim is to continue to develop

Comply with all relevant environmental legislation, regulations and codes of practice.

Ensure that these policy commitments including the minimisation of waste and use of plastic extends to outsourced suppliers and the supply chain.

Work with our educational partners to encourage good environmental management practices in partnership campuses.

Publicly report our progress against these policy commitments on a regular basis.

To ensure the effective implementation of this policy we will set appropriate objectives and targets which will be reviewed on a regular basis.

We will also review this policy on a regular basis to ensure it remains appropriate to the nature, scale and environmental impacts of our activities, products and services.
