Annual Statement on Research Integrity Academic Year 18/19

Introduction and Context

As a signatory to the Concordat to Support Research Integrity, De Montfort University (DML) has responsibility to ensure that all research conducted under the auspicesof the university highly desirable to use the U annual statemenbutlining:

- x Asummaryof actions and activities undertakento support and strengthen the understanding and implementation of resear in the grity;
- x Confirmation that we have provision for dealing with allegations of misconduct and that all procedures follow transparent, robust and fairrocess;
- x Details of any formal investigations of research misconductoantcomes.

Through compliance with the Concordat, DMU are able to demonstrate a commitment to promoting good research practice, as set out in the

and-governance/researchequiring-ethical-

approval.asp). It is imperative that ethical approval is applied for prior to the commencement of researchand routed through the appropriate Faculty Restate Ethics Committee (FREC), meetings of which are held quarterly. FRECs report to the University Research Ethics Committee (UREC). Studies that are deemed high risk may be escalated to the University Research Ethics Committee (UREC). Failure to obtain ethical approval is dealt with through the Misconduct in Research Policy.

A significant step in the settissessment process has been the setting up of an Ethics Task Group.

Systems and Processes

x This year saw the Faculty Research Ethics Committees (FRECS) is with the University Research Ethics Committee, tryinogstreamline processes with a view to procuring an online system to make the ethics application processes more efficient and audiAdble. FRECs reviewed ethics application forms in order to produce a standard univerdistry form. Revisions incorporated more detail that would reflect the requirements of the research project in greater depth, thus supporting a betteformed decision-making process for the FREQnd to better ensure that students are alerted to ethical issues that they may not have forseen.t Td [(th)5EMC /P <<(LBc7)9d[(ECaD 9 >>B/C2_0 Tc f Tc [(t72d [(<00 tops to the tree that they may not have forseen.they may not

- x Programme handbooks are begineviewed and revised to ensure that students are fully aware of the repercussions of not applying for ethical approval PRIOR to the commencement of ANY project/ dissertation that involves research
- x Research ethics training is to be rolled out with iterations every 2 months for staff, and a set of training materials and online resources for postgraduate research students, completion of which is mandatory for them. Training on responsible innovation is to be rolled out in the new academic year.
